

# Australian Energy Council Conference 2026

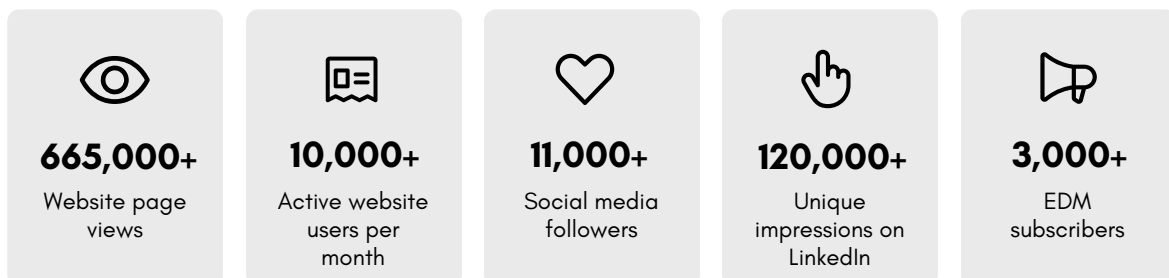

## Energy2050: *Mapping the Way Forward*

A vision for the future energy system

**Date:** 4 June 2026  
**Venue:** Sydney Masonic Centre  
**Address:** 66 Goulburn Street, Sydney  
**Theme:** Energy2050: A vision for the future energy system

The Australian Energy Conference is the AEC’s flagship national event, bringing together senior leaders from across the energy supply chain, government, regulatory bodies, consumer organisations and emerging technology sectors. The Conference will explore the major strategic, policy and market issues shaping Australia’s energy transition, with a focus on reliability, customer outcomes, investment signals, affordability and system resilience.

Featuring high-profile keynotes, expert panels and exclusive networking opportunities, the conference provides a platform for deep industry discussion and thought leadership. Attendees gain insights into the latest market developments, upcoming reforms and long-term sector transformation, while connecting with peers and decision-makers from across the country.

**Don't miss your chance to be part of this dynamic event that promises to inspire and connect!**
